## Tree Adoption

Help us reforest the Sierra Nevada de Santa Marta!

### REFORESTATION SITE:

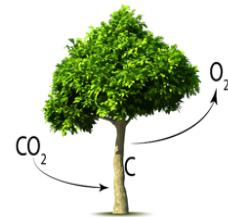

At the Mendihuaca River basin, where the TierrAmar foundation protects tropical humid forests, its water resources and fauna in the Sierra Nevada de Santa Marta (Colombia).

### WHY PLANT TREES HERE?

The Sierra Nevada de Santa Marta contains 36 rivers; it is considered a Biosphere Reserve, due to its high levels of biodiversity and endemism; and it was declared as the most irreplaceable site for threatened species. Yet, its fragile and vital ecosystems are threatened since more than 80% of the Sierra has been deforested.

### BY ADOPTING TREES WITH TIERRAMAR YOU'RE CONTRIBUTING TO:

- Employment generation for local farmers, Kogi Indians and single mothers who will plant and take care of your trees
- Oxygen production, carbon sequestration, water regulation and erosion prevention
- The promotion of the generation of food, medicine, fabrics, habitats, and shade given by the planted trees

**COST PER TREE (FOR YOU OR FOR SOMEONE ELSE AS A GIFT):**  
USD 13.00

**ADOPT YOUR TREES BY TRANSFERRING TO:**
